Dear Fellows,

It is with great pleasure that we welcome you to the family of over 850 researchers who have joined the ranks of the Rothschild Fellows over the past 45 years and to our annual kick-off event. We see this as an opportunity for you to get to know Yad Hanadiv, the Rothschild Fellows selected this year, as well as past Fellows who have recently returned to Israel.

The Rothschild Fellowship programme is one of Yad Hanadiv's flagship initiatives to strengthen Israeli academia. Over many decades, Rothschild Fellows have demonstrated the immeasurable importance that scientific inquiry, carried out at the highest international standards, holds for Israel's future. Every new cohort of Rothschild Fellows affords us an opportunity to meet extraordinary young scholars, each with the potential to transform his or her field, and even the world around us.

The ability to sustain top quality research in Israel must never be taken for granted. It depends on committed scholars such as yourselves building careers in Israel's universities. Developing science to its full potential in this small country and within the global context facing us these days also requires a continuously engaged scientific community able to collaborate across disciplines and institutions. We are proud of the active and integral part that so many past Rothschild Fellows have played, and continue to play, in this vital enterprise. We hope that as your career develops and you find new areas of impact, we will continue to find ways to support this vital work.

Experience of over four decades of Rothschild Fellowships convinces us that your future path is likely to be both exciting and important. We look forward to following your academic journey.

Dr Yigal Mersel  
Chief Executive  
Yad Hanadiv

Dr Asher Ragen  
Programme Director  
Academic Excellence

## ABOUT THE ROTHSCHILD FELLOWSHIPS

The Rothschild Fellowships have been a mainstay of Yad Hanadiv's support for excellence in Israeli academia since the programme was established in 1979. Fellowships are awarded to scholars of outstanding academic merit and potential from Israeli universities to pursue postdoctoral study abroad. The Fellowships enable young researchers from all disciplines to advance in their respective fields, make important contacts, learn new methodologies and techniques, have direct access to important scholarly resources and gain experience and knowledge at leading centres of study in their fields. Over 850 Fellowships have been awarded to date.

Today, Fellowships are awarded in four separate categories:

1. Natural, Exact and Life Sciences and Engineering (NELS), chaired by Professor Marc Feldman (Stanford University)
2. Humanities and Social Sciences (HS), chaired by Professor Anthony Grafton (Princeton University)
3. Brain, Mind and Language (BML), chaired by Professor Naama Friedmann (Tel Aviv University)
4. Physician-Researchers, chaired by Prof. Shai Izraeli (Childhood Malignancies and Leukemia, Schneider Children's Medical Centre)

A total of 32 Fellowships were awarded in 2024. A complete list of past Fellows can be found on page 21.

Yad Hanadiv highly values the Rothschild Fellows and their pivotal role in shaping Israel's academic landscape. In 2024–25, we are exploring the establishment of a community dedicated to supporting Rothschild Fellows as they pursue their academic endeavours and careers. Through engaging events, such as the upcoming Rothschild Fellows Colloquium in 2027, mentorship opportunities, and online platforms, the community aims to foster connections, facilitate professional growth, and catalyze collaboration. To learn more and become a part of this enriching community, please reach out to our Academic Excellence team.

## ABOUT ACADEMIC EXCELLENCE

*Supporting international-calibre research in Israel by investing in outstanding young scholars and promising fields*

Funding world-class research in Israel has been a mainstay of Yad Hanadiv's philanthropy for decades. Support is provided through Fellowships, institutional grants, and strategic initiatives and partnerships that advance high quality academic work in select fields of study. Yad Hanadiv also works to expand opportunities for Israelis from all backgrounds to develop into exceptional scholars.

One area of strategic focus is biomedical research. Yad Hanadiv collaborated in establishing the Israel Partnership for Precision Medicine ([precisionmedicine.org.il](http://precisionmedicine.org.il)), operated by the Israel Science Foundation. This programme has provided dozens of substantial research grants that build on the sharing of clinical data, large-scale collection and analysis of genomic and other molecular data, and by bringing together researchers from clinical and university settings. The continuation programme, MAVRI, seeks to establish a career path for Physician-Researchers, and to ensure that adequate funding enables wide and ambitious research collaborations between physicians and scientists from diverse specialties and institutions.

A second area of focus is on research and teaching in the Humanities, supplying funding that furthers high levels of scholarship, interdisciplinary research, and closer ties between academic humanities and the cultural sector.

The Arab Excellence strategy, operated jointly with Yad Hanadiv's Arab Community team, seeks to increase opportunities for Arab students to excel in higher education and in academic and valued private sector employment. The emphasis is on improving levels of achievement in Science and Technology disciplines.

A recently launched programme also seeks to improve access to competitive academic programmes among first-generation students from the periphery.

## **ABOUT YAD HANADIV**

Yad Hanadiv is dedicated to creating resources for advancing Israel as a healthy, vibrant, democratic society, committed to Jewish values and equal opportunity for the benefit of all its inhabitants. The Foundation acts on behalf of Rothschild Family Trusts that carry forward a 130-year tradition of philanthropy in Israel. Yad Hanadiv seeks to maintain a modest public profile and traditionally refrains from publicizing its grants. Among its better known projects are the construction of Israel's Knesset (1966) and Supreme Court (1992) buildings, the establishment of Educational Television (1966), the Centre for Educational Technology (1974), the Open University of Israel (1976), and the renewal of the National Library of Israel and construction of its new building, which opened in October 2023. Current activity focuses on five core programme areas: Academic Excellence, Education, Environment, Arab Community and Early Childhood. The Foundation is also responsible for operating the Ramat Hanadiv Nature Park and Memorial Gardens.

## COMMITTEE MEMBERS 2024–2025

### Rothschild Fellowships in the Humanities and Social Sciences

**Chair: Prof. Anthony Grafton**

History, Princeton University

**Prof. Ran Abramitzky**

Economics, Stanford University

**Prof. Guy Bar-Oz**

Zooarchaeology, University of Haifa

**Prof. Niva Elkin-Koren**

Law and Technology, Tel Aviv University

**Prof. Ruth Fine**

Iberian Studies, The Hebrew University

**Prof. Adiel Schremer**

Jewish History, Bar-Ilan University

### Rothschild Fellowships in the Natural, Exact and Life Sciences and Engineering

**Chair: Prof. Marcus Feldman**

Ecology, Stanford University

**Prof. Ron Adin**

Mathematics, Bar-Ilan University

**Prof. Mark Gandelman**

Chemistry, Technion

**Prof. Yonit Hochberg**

Physics, The Hebrew University

**Prof. Vered Padler-Karavani**

Biomedicine, Tel Aviv University

**Prof. Howard Stone**

Engineering, Princeton University

**Prof. Michael Wooldridge**

Computer Science, University of Oxford

### **Rothschild Fellowships in Brain, Mind and Language**

**Chair: Prof. Naama Friedmann**

Psycholinguistics, Tel Aviv University

**Prof. Tal Eyal**

Psychology, Ben-Gurion University of the Negev

**Prof. Sachiko Kinoshita**

Psychology, Macquarie University

**Prof. Esther Ruigendijk**

Psycholinguistics, Carl von Ossietzky University of Oldenburg
